## CONDEMNED ANARCHISTS.

### PREPARATIONS FOR THE LAST ACT IN THE HAYMARKET TRAGEDY.

The Second Illinois National Guards Will Be on Duty for a Week Previous to the Execution—Making the Shrouds and Caps—Program of Execution Day.

CHICAGO, Oct. 27.—Preparations are already being silently made for the great anti-Anarchist drama of the 11th of November. Already orders have been given, it is said, to the members of the Second Illinois National guard, that they will be required to be on duty for a full week, or perhaps longer, prior to November 11, at their armory, or wherever else their services may be required.

The probability is that the First regiment will be called upon to do the same. It is understood, however, that neither of the regiments will be called from their respective armories unless in case of absolute need. It is also stated on authority that the entire block upon which the county jail and the criminal court building are located will be cordoned with police, and all the North Clark street buildings abutting on the jail will be guarded by officers, and no one allowed to enter them until after the execution of the condemned men. For the benefit of the great family of curiosity seekers who are ambitious to see their fellowmen swing into eternity, it may be stated that the sheriff has already, it is said, decided to limit the number of those present to those that the law requires to be present, and to a very few representatives of the press.

The gloom which has marked the condemned men, with one exception, for several days past, still continues to deepen. The exception is that of Parsons, who still indulges in his chronic flippant good spirits and laughs and jokes with those who call upon him. The others, however, make no longer any attempt to conceal their feelings or to blind themselves to the fate which threatens them. It is stated by certain persons, who claim to have good reasons for what they say, that Governor Oglesby will grant the condemned men a brief respite, so that they will not be limited to a bare fortnight to prepare themselves for death.

On the morning of the day during which there shall be a probability of the United States supreme court's decision arriving in this city—probably Thursday morning—the guard upon the condemned will be doubled, or perhaps trebled, and the freedom which they have hitherto enjoyed will be materially curtailed. No one will be allowed to visit them at all. This latter precaution will be taken to avoid the possibility of anyone furnishing the prisoners with poison or other means of suicide.

Quite a sensation was caused yesterday among the inmates of the women's department of the jail, by an official request that they help make the shrouds and caps to be used at the execution of the condemned seven. Some of the inmates were willing to do the work required, and were even anxious to participate in the ghastly task, but others were strongly opposed to rendering any aid, and these formed so large a part of the inmates that it may be necessary to have the work done outside the jail. The material—white unbleached muslin—has already been purchased. Each shroud will be shaped like a bag, only with holes in both ends and gathered close at the top. The hoods will be half a yard in width and about the same in length, gathered together at the top, which will be about ten inches across. The material is cut into the necessary shape, and lacks nothing but the stitches that were asked of the motley crowd of women malefactors confined in the same prison with the seven death-sentenced Anarchists.

It is rumored that Governor Oglesby will commute the sentences of Parsons, Fielden, Schwab and Fisher to imprisonment for life. The remaining three, Spies, Lingg and Engel, will have to pay the death penalty. A great pressure is being brought to bear on the governor, and hundreds of petitions and letters are received daily from all over the country.

Mr. Solomon Denies It.

WASHINGTON, Oct. 27.—A Chicago dispatch published yesterday, stating that Moses Solomon, one of the counsel for the Anarchists, telegraphed from Washington that there is little hope that a writ of error would be granted by the supreme court and that the whole matter would come back to Illinois to rest with the governor, is pronounced to be without foundation. Mr. Solomon said last evening: "I should indeed be lacking in courtesy to the other counsel in the case to have sent such a dispatch, but I have sent no such one. In fact, my opinion is just the contrary to the sentiment expressed therein. I am more confident that the supreme court will grant a writ of error, because it is justified by the law, evidence and justice. I may add that my opinion is shared by Messrs. Tucker, Pryor, Gen. Butler and other counsel in the case. No, we are far from being despondent, but are quite the reverse." Mr. Solomon said that the Anarchists' counsel had not communicated with their clients since their arrival in Washington.

### THE FIDELITY CASES.

Pleadings of the Bank Wreckers Delayed—Suits Filed by the Receiver.

CINCINNATI, Oct. 27.—A dispatch from Judge Jackson states that he is still in bed at his home in Nashville, Tenn. The pleadings of Harper, Hopkins, Holmes, Wilshire and Baldwin will be delayed until he recovers.

In the Federal court this morning Receiver Armstrong, of the Fidelity Bank, filed suit against W. H. Stange on a promissory note for \$5,400, with interest since July 7 last. Stange was the maker of the note. A substituted petition was also filed by the receiver against William Woods, of Chatfield & Woods, to recover on a promissory note for \$13,500, with interest since July 7 last.

Brooklyn's Registration.

BROOKLYN, N. Y., Oct. 27.—The fourth registration, made necessary by an error in the dates by the board of estimate, was held yesterday. There were 9,613 names added, making a total of 129,688, against 127,704 in the last presidential election year.

## G. A. R. CELEBRATION.

Gathering of Veterans at Cincinnati for a Great Event.

CINCINNATI, Oct. 27.—G. A. R. headquarters to-day are all bustle and activity, and the rooms are thronged with happy comrades, Sons of Veterans and members of the Ladies' Relief corps, who are delighted at the prospect of to-morrow's celebration. All the preliminaries are complete, and the various committees are now polishing off the minor details.

To-day's program consisted principally of receptions of the different visiting posts from Ohio, Indiana and Kentucky. The commander of the department of Kentucky reached the city to-day, and Commander Putnam, of Ohio, and Past Commander Carnahan, of Indiana, are expected to-morrow. Comrade Private Dalzell has arrived and took up quarters at the Gibson house. Excursionists on the various roads are already pouring into the city.

The wagons for the parade will receive their gorgeous decorations in the evening. On the first tableau car will be seated the Goddess of Liberty and thirty-eight school girls, representing the different states of the Union.

The next will be the hospital wagon, containing a dead soldier with two sisters of charity bending over him, a wounded soldier with a surgeon and his assistant, two soldiers and two ladies of the Relief corps.

The next wagon shows a home scene, a soldier leaving home, with his father, mother and sisters weeping over his departure and sweetheart throwing kisses after him.

The third wagon will be filled with crippled soldiers.

In the fourth wagon will appear several members of the Ladies' Relief corps and G. A. R. comrades distributing charity to widows and orphans of deceased soldiers.

The fifth wagon will present a plantation scene—negroes singing and dancing as the emancipation proclamation is read to them.

A six-mule team, drawing an old army wagon, will be filled with "Sherman's Bummers," and reproduce on a limited scale of magnificence the "March to the Sea." "How to Forage" will be spiritedly illustrated—live hogs, dogs, sheep and other game of a successful expedition being provided. "Sherman's Bummers" wagon will create no end of amusement.

Following the bummers will be a venerable ark representing the navy, fitted with jolly jack tars.

### THE C. H. & D. TROUBLE.

The Road is Declared Insolvent and a Receiver to Be Appointed.

HAMILTON, O., Oct. 27.—Judge Van Derveer to-day decided the application of G. K. Duckworth for a receiver of the C. H. & D. railroad in favor of Duckworth. The principal findings are that the C. H. & D.'s assets are not more than \$8,000,000 while the liabilities are \$30,000,000. There is no money in the treasury to pay claims maturing. The company is insolvent and the board of directors have no power to authorize Ramsey & Dexter to execute notes of purchase for the hypothecated stock. The syndicate to redeem Ives' claims was found to be not in the interest of the company but of private parties. Ives & Co. were made fiscal agents when they knew Ives' had standing, thereby the road sustained a loss of \$7,000,000.

By the purchase of the Terre Haute & Indianapolis company the control of the road, together with \$2,000,000, was lost through Ives, who now owns and controls more than two-thirds of the common stock and influence of the road. The directors were responsible to the stockholders for \$10,000,000 lost on the Terre Haute & Indianapolis deal, and \$7,000,000 owing to the transfer to New York of the effects of the company, and an action ought to be commenced against the directors to recover those amounts.

Great and irreparable injury will be done unless the directors are restrained from the payment of the notes given and from entering into the syndicate for the purchase of the Ives claims. A receiver will therefore be appointed to settle up the complications and bring action against the directors and avoid the necessity for the sale of the road.

The receiver has not been named, but the general opinion is that Campbell will be the man.

### Effect on the Market.

NEW YORK, Oct. 27.—Five hundred and fifty shares of the Cincinnati, Hamilton & Dayton railroad, par value of \$100, were sold at auction at the real estate exchange to-day, at from \$21 to \$23 per share.

### Dry Goods Burglars.

WAPAKONETA, O., Oct. 27.—The dry goods store of J. H. Thinnemeyer was entered by burglars this morning. They broke a pane of glass and took notions amounting to \$300. They were scared off in time as they had laid out to take plushes, silks and fine underwear. They had a wagon to take the goods. This makes the second time this game has been tried. No clue, but a suspicious character is watched.

### Crew of the Steamer Victor Arrives.

PARRY SOUND, Ont., Oct. 27.—The steamer Maxwell arrived here last night, bringing the crew of the barge Victor, which was wrecked Sunday on Moose Point. The Victor was in tow of the steam barge Chamberlain, when the tow line parted. The crew made a raft of the cabin and got ashore. When found they were in a perishing condition, two of them having their feet frozen.

### Wife Murderer at Bay.

MOUNT STERLING, Oct. 27.—Last Tuesday night Ben. Howard, who has been separated from his wife for three months past, met her at a store, and because she would not return home with him, shot her dead. Yesterday morning a posse of thirty men surrounded Howard in the woods, and at last accounts were exchanging shots with him. It is intended to capture him dead or alive.

### Fire in a Mine Shaft.

DES MOINES, Iowa, Oct. 27.—Fire yesterday burned the top of the shaft of the Garver coal mine, clearing up all the buildings and doing much damage to the large boiler and engine. The shaft burned to a depth of twenty feet. The loss is roughly estimated at \$20,000, upon which there is an insurance of \$1,000.

## OUR WOOL PRODUCTIONS.

### INTERESTING REPORT FROM THE BUREAU OF STATISTICS.

Surprising Number of Inquiries Regarding the Product From all Parts of the Country—Only Three Nations Outstrip Us in Sheep—Washington Notes.

WASHINGTON, Oct. 27.—Chief Switzler, of the bureau of statistics, heaves a huge sigh of relief just now. He has completed and given to the world his "wool report," on which he has been so long engaged.

"I have given a great deal of work and patient investigation to this work," he said as he sat in his office wrestling with the last pages of it, "and I flatter myself it will be of interest to a great many people. This bureau has certain regular duties in the way of periodical reports, but I have been trying since I came here to not only attend to those regular duties but at the same time undertake a number of special works, which should prove of value as an educational feature, and at the same time answer some of the constant inquiries I am receiving."

"Was that the occasion of your report on the wool production of the country?"

"Yes, that is the very question that Secretary Fairchild asked me—'Why do you select wool for a special report?' I replied, 'Because I have so many inquiries about this particular subject. If I should get a great many inquiries, the year round, about infant baptism, I should feel called on to gather some facts about infant baptism and give them to the public. But I don't. My inquiries, in the past year or so, have been about wool. They come from all directions and from a great many people and classes of people. That's why I have prepared this report on wool.'"

"Have you found the study an interesting one, Mr. Switzler?"

"Very. And I think the facts as gathered and compiled will interest a great many people. I know that I found them very instructive as well as interesting, and many of them very hard to get."

The report, of which Mr. Switzler feels so justly proud, is a volume of 300 pages. It takes up the history of wool from the earliest period of its use for clothing, running back to the infancy of the human race, and tracing it on down through the various ages and countries, until the first sheep landed on American soil in 1609, when a few were brought from England and landed at Jamestown. A few years later some more were brought over and landed in New England, and by 1640 there were probably 4,000 sheep in this country. Now there are 45,000,000.

Only three other countries of the world can size up alongside of us in the sheep growing industry. We have forty-five millions, but the Argentine republic has seventy-five millions, Russia has fifty-seven millions, and Australia, in her various divisions, has more than sixty millions. Then we come in with our forty-five millions. According to Mr. Switzler's best estimates there are probably about 450,000,000 sheep in the world, so that we, with our forty-five millions, have just about 10 per cent. of the entire number in the world.

Our 45,000,000 sheep produce 280,000,000 pounds of wool a year. To this we add 114,000,000 pounds by importation. At least that was the amount imported last year, but over half of this was coarse carpet wool. Beside this we imported last year \$40,000,000 worth of woolen goods, manufactured abroad. The duty paid on the imported wool, last year, was over \$5,000,000, and the duty on imported manufactures of wool, \$27,000,000.

An interesting feature of the report, is one which shows the difference between wool and hair. It may seem rather an odd subject, but it is one that will interest a good many people.

Wool white hair in one sense is, in its formation, materially different. Hair placed under the microscope is a strong but smooth cylinder, while wool has the appearance of a continuous stem with minute serrations running around it, or in other words, seems to be a series of soft tiny cups, set one into another. It is this peculiar formation that enables the spinning of wool. The long wool, when spun into hard threads and woven closely, makes "worsted," the shorter wool, when once spun and woven, is "felled" up into a hard cloth and makes "cassimeres."

### Thanksgiving Proclamation.

WASHINGTON, Oct. 27.—The following Thanksgiving proclamation was issued late Tuesday afternoon:

"The goodness and mercy of God which have followed the American people during all the days of the past year, claim their grateful recognition and humble acknowledgment. By His omnipotent power He has protected us from war and pestilence, and from every National calamity; by His gracious favor the earth has yielded a general return to the labor of the husbandman; and every path of honest toil has led to comfort and contentment; by His loving kindness the hearts of our people have been replenished with fraternal sentiment and patriotic endeavor and by His unerring guidance we have been directed in the way of National prosperity.

"To the end that we may, with one accord, testify our gratitude for all these blessings, I, Grover Cleveland, president of the United States, do hereby designate and set apart Thursday, the 24th day of November next, as a day of thanksgiving and prayer, to be observed by all the people of the land. On that day let all secular work and employment be suspended; and let our people assemble in their accustomed places of worship and with prayer and songs of praise give thanks to our Heavenly Father for all that He has done for us, while we humbly implore the forgiveness of our sins and a continuance of His mercy. Let families and kindred be united on that day, and let their hearts be filled with kindly cheer and affectionate reminiscence be turned in thankfulness to the source of all their pleasures and the giver of all that makes the day glad and joyous.

"And in the midst of our worship and our happiness let us remember the poor, the needy and the unfortunate; and by our gifts our charity and ready benevolence, let us increase the number of those who, with grateful hearts, shall join in our thanksgiving.

"In witness whereof I have set my hand and caused the seal of the United States to be hereunto affixed.

"Done at the city of Washington this 25th day of October, in the year of our Lord one thousand eight hundred and eighty-seven, and of the independence of the United States the one hundred and twelfth.

"GROVER CLEVELAND.

"By the president:

"THOMAS F. BAYARD, Secretary of State."

### Death Rate in the Army.

WASHINGTON, Oct. 27.—The annual report of the surgeon general of the army to the secretary of war shows a slight increase in the death rate in the army and a decrease in the number of admissions to hospitals. The medical supplies for the year cost \$159,866, which amount will be exceeded this year. The employment of twenty additional assistant surgeons is recommended.

### A RAILROAD MEETING.

Annual Meeting of the Big Four Stockholders at Indianapolis.

INDIANAPOLIS, Ind., Oct. 27.—The annual meeting of the stockholders of the Cincinnati, Indianapolis, St. Louis & Chicago was held at the company's office in this city at 12 o'clock yesterday. Gen. T. A. Morris acted as chairman of the meeting. Forty-nine thousand one hundred and eighty-five shares were represented, and the following directors were elected: George Hoadly, George Bliss, J. Pierpont Morgan, R. R. Cable, Thomas A. Morris, Orland Smith, E. J. Broadwell, C. P. Huntington, Lars Anderson, E. T. Jeffery, A. M. Fletcher, Alex. McDonald, M. E. Ingalls. But one change was made, that of substituting Alex. McDonald for George Wilshire, who resigned. Mr. T. A. Morris, of this city, who was re-elected a director, has served as a director of this road for thirty-six years, being elected to that position when the road was built from Greensburg to Indianapolis. The directors then elected the following officers for the ensuing year: M. E. Ingalls, president; E. F. Osborn, vice president and treasurer, and J. C. Davis, secretary.

The party left at 3 o'clock for Chicago, and made the run in five hours. The run from Cincinnati to Indianapolis was made in three hours, and seemingly with perfect ease, which satisfies President Ingalls that it is practicable to put on a limited express to make the run from Cincinnati to Chicago in eight hours, should it become necessary for him to do so to take care of competitors.

### Millionaire Flood Dying.

SAN FRANCISCO, Oct. 27.—James C. Flood, the BORAZIA king, is reported at death's door. He has not yet recovered, and probably never will recover, from the shock incident to the great wheat corner and the Nevada bank troubles. Occasionally he appears to be in fair health, but a relapse speedily follows. He has grown much worse in the last few days, and alarming rumors about his condition are now current. Mr. Flood is now residing with his family in the brown stone mansion on California avenue.

LATER.—The friends of James C. Flood claim that there is no reason to expect any alarming turn in his illness, though he has grown considerably weaker for a few days past.

### Ivy City Races.

IVY CITY, D. C., Oct. 27.—The second day's meeting of the National Jockey club opened to cloudy weather. The track was in fair condition, and the attendance about 8,500. First race, for two-year-olds, six furlongs: Fordham first, Rita R second, Vance third. Time 1:45 1-4. Mutuals paid, \$9.70.

Second race, handicap sweepstakes, one mile and one furlong: Richmond first, Wilfred second, Banner Bearer third. Time 1:57. Mutuals paid, \$11.10.

Third race, the Anacostia stakes, one mile and one furlong: Kingston first, Stuyvesant second, only two horses. Time 1:56 1-2. Mutuals paid \$9.15.

Fourth race, seven furlongs: Eolian first, Hanover second, Mamie Hunt third. Time 1:28 3-4. Mutuals paid \$12.75.

### Drowned in the Ocean.

PITTSBURGH, Oct. 27.—A telegram from Somers's Point, N. J., reports the drowning of William Reed, of this city, in the Atlantic ocean. Mr. Reed was regarded as the most expert mineral and oil prospector in the United States, and had amassed a fortune of nearly \$1,000,000. For twenty-five years he had been engaged in prospecting. He was the possessor of a diving rod or an electrical contrivance with which he was very successful in locating paying streaks. He could find a coin hidden in any part of a room, never failing in the attempt, and proceeding with the greatest indifference and ease.

### Over Seven Years Afloat.

SANDWICH, Mass., Oct. 27.—A bottle has been picked up on Sandy Neck beach, near Barnstable, in which was found a slip of paper with the following words thereon: "September 19, 1830. On board steamer Sidney Wright. To whoever may chance to pick this up: We are about fifty miles off Key West with a broken crank-pin and the sea is running heavy at 3 p. m. Am afraid we will never reach home. All well at the time of writing, but trust that some passing vessel may see us and pick us up. If not the tale is told. Trusting this may be picked up, Dennis Murphy, Boston."

### Sounds Fishy.

CINCINNATI, Oct. 27.—A number of men have been employed for several days past "digging an artesian well on the premises of Gustav Getz, on the Baltimore & Ohio road, about one mile north of Winton Place. About noon day before yesterday one of the men was down about thirty feet, smoking a cigar, when gas was struck. The light from the cigar ignited the gas, and the blaze shot up six feet above the top of the well. The unfortunate fellow in the bottom of the well was rescued with some difficulty, little the worse for his experience.

### Accidentally Killed His Father.

KOKOMO, Ind., Oct. 27.—Charles L. Bandwin, aged forty-five, was accidentally shot by his oldest son, Frank, about nineteen, while quail hunting ten miles south of here yesterday morning. Frank fired one load at birds, missing them. His father, urging him to shoot again, some way fell forward in the way, the charge taking effect in the back near the left lung, killing him instantly. He leaves a wife and three children. He resided here.

# DAILY EVENING BULLETIN.

DAILY, EXCEPT SUNDAY.

ROSSER & MCCARTHY,  
Proprietors.

## RATES OF SUBSCRIPTION.

THE DAILY BULLETIN will be delivered to any part of the city at 6 cents a week, or one year for \$3.

THE DAILY BULLETIN to any postoffice in the United States, postage prepaid, at twenty-five cents per month or three dollars per year.

THURSDAY EVENING, OCT., 27, 1887.

Another Kentucky railroad is talked of. It is to run from Lawrenceburg, Anderson County, to Lexington.

Anderson County pays her County Judge, County Attorney and Superintendent of Schools each a salary of \$300.

The John C. Breckinridge monument at Lexington will be unveiled on the 14th of next month. The address will be delivered by Senator Blackburn.

It is estimated that the Prohibitionists will poll 45,000 votes at the approaching election in Ohio. They are working to secure 60,000 but are very apt to be disappointed.

Booth and Barrett are raking in the shakles this season, and ought to be able to retire in a short time and live at ease the balance of their lives. They made \$71,998.50 in a three-weeks' engagement at Chicago.

The Republicans of Nicholas County have nominated W. H. Fritts, late Postmaster, for Sheriff, Homer Bryson for Deputy Sheriff, and Rev. Henry Clay (colored) for Constable. This is the first time the negro has ever been recognized by the party in the least degree in that county, and it is considered a very novel proceeding.

A special from Owensville says perhaps never before in the history of that county has there been more excitement over an election of any kind than exists at present over the proposition to vote a subscription of \$150,000 to the Paris, Georgetown and Frankfort Railroad. The election will come off on the fifth day of November. It is said the anti-railroad party have plenty of money and they will make a hot contest, but it is safe to say that they will be defeated by not less than 500 majority.

Put 'Em on the Hill, of Course. Maysville is the boomiest town in the State and there is less said about it. We venture the prediction that within less than ten years the city will contain 50,000 inhabitants.—Robertson County Democrat.

Jerusalem! We hope the prediction may be verified. But we may be permitted to predict that when Maysville has 50,000, Lexington will have a million. The only thing that bothers us is to imagine where Maysville will put her 50,000 without tearing down the everlasting hills that now form such a delightful back ground to that charming city.—Lexington Transcript.

## Stock and Crops.

Chicken cholera is killing the poultry in the vicinity of Ripley. One farmer has lost sixty chickens.

The News says the wheat prospects of Bourbon never looked prettier than at present, and the fall grass never was better.

Dr. Corliss, of Brooksville, sold eleven hogheads of tobacco at Cincinnati the other day at prices ranging from \$17 to \$26 a hundred.

T. J. Black, of Germantown, is among the fortunate tobacco merchants this year. He recently sold one hoghead at Cincinnati which brought him \$29, and seven hogheads which ranged from \$19.50 to \$29.

The following is the assessed value of stock in Texas: Horses and mules, 1,193,322 head, value, \$32,221,771; cattle, 6,741,964 head, value \$48,735,614. The decrease in the value of cattle from last year is about \$6,000,000.

The best estimates place this year's crops of the United States as follows: Wheat, 450,000,000 bushels; corn, 1,800,000,000 bushels; oats, 600,000,000 bushels. These figures are slightly smaller than last year's yield. The largest crop ever grown in the United States was as follows: Wheat, 513,000,000 bushels in 1884; corn, 1,936,000,000 bushels in 1885; oats, 629,000,000 bushels in 1885.

A new disease is very prevalent among the horses in Mercer County. The Democrat says: "The animal begins with a slight cough, followed by ugly discharges from the nose, exhibits signs of weakness, refuses to eat, and has a languid drooping appearance. Whenever the disease reaches the lungs it is sure to prove fatal. This distemper or horse cholera, or whatever it is, has gone through the horse and mule stock of Mr. J. A. Hugely, who lost one very fine animal. Col. J. P. Chinn's stock are now afflicted with it, and two of his blooded colts died. D. L. Moore's colts and allies have it, and last week one very fine 'Irvine Sprague' yearling filly died. No one offers to prescribe any course of treatment for it, and no one seems to know what the disease really is."

# THAT LEWIS COUNTY GOLD.

What a Miner From New Mexico Has to Say About the Precious Metal.

The gold mines in Lewis County have been heard from again. Mr. Eli Oliver, who had the assay made some months ago by Professor Dickore of Cincinnati, and who holds the Professor's certificate that the ore yielded about \$35 a ton, was in town yesterday, and called to see the BULLETIN. Mr. Oliver lives near Petersburg, and is convinced that there is gold on his land. He is firm in this belief, but he has not been able yet to determine in what qualities the precious metal is to be found.

The news of the reported discovery of gold has spread to distant parts of the land. It has extended even to New York, and Mr. Oliver informed us that a syndicate of capitalists of that city have very recently had their agents in the neighborhood of Petersburg, and have bought about five hundred acres of land in that vicinity, paying the round sum of \$10,000 for it. This land, our informant says, could have been bought less than a year ago for a mere trifle.

Then there has lately visited the neighborhood a fellow who claims to be a miner all the way from the far West. He hails from New Mexico, and made an examination of some of the ore found on Mr. Oliver's land. The result of his examination is found in the following: SHARP'S CHAPEL, LEWIS COUNTY, KY., October 18, 1887.

To Whom it May Concern: This is to certify that I am a practical miner from New Mexico, and that I understand mining. I have found gold on the farm of Eli Oliver, but as to quantity I can not say, as I have nothing but a pan to test with.

## Personal.

Miss Eva Bruce Lowry is visiting at Elizaville.

Miss Anna Kate Wilson is visiting at Mayslick.

Rev. C. B. Hudgins, of Rome, Ga., is here on a visit to relatives.

Mrs. Isaac Boegner, of Springville, Ky., is the guest of her brothers, the Messrs. McClanahan, of the West End.

"That Miss Jones is a nice-looking girl, isn't she?"

"Yes, and she'd be the belle of the town if it wasn't for one thing."

"What's that?"

"She has catarrh so bad that it is unpleasant to be near her. She has tried a dozen things and nothing helps her. I am sorry, for I like her, but that doesn't make it any less disagreeable for one to be around her."

Now if she had used Dr. Sage's Catarrh Remedy, there would have been nothing of the kind said, for it will cure catarrh every time.

A PROTRACTED meeting is in progress in the Christian Church at Germantown, conducted by Elder Hawkins.

## City Items.

Try Langdon's City Butter Crackers.

School books and school supplies upon most favorable terms, at G. W. Blattnerman & Co's.

The latest styles of wall paper and ceiling decorations, at J. C. Pecor & Co's drug and book store.

This is the time to have your photographs taken. Just received, new backgrounds and accessories, gotten from the late convention at Chicago, at Kackley's gallery.

## Fashion Notes.

(New York Evening Star.)

Pretty shoulder capes of crocheted sephyr wool are worn by school girls.

Far trimming will prevail, and the blue fox, golden-brown beaver and the gray moulton promise to be favorites next to the expensive seal-skin. The long graceful fur boa retains its hold and is likely to do so.

A chief feature of many of the autumn mantles is the peplum fronts, falling straight and square or gathered at the ends, and finished with a beaded ornament. The majority of these wraps, however, are short on the sides and at the back.

## Shackelford's Pharmacy.

Most attractive store in town—in "Cox Building." Fine old wines and liquors for medicinal purposes. Pure drugs. Toilet articles in great variety.

The other day Rubinstein entertained a large number of visitors at his house, and several ladies of the company amused themselves by looking through an album that belonged to the great pianist. On one of the first pages they found a faded likeness of an old Polish Jew, and wondered how it got there. In answer to their inquiry Rubinstein said, with a smile: "That is a personage in whom I am greatly interested, and I shall be very happy to inform you how we became acquainted. I was very young at the time, and had advertised my first concert in a Polish town. For half a day I had been sitting at the pay desk, but nobody seemed inclined to purchase tickets for a pianoforte recital, and it looked as if my audience would be composed entirely of those to whom free passes had been distributed. Suddenly an old Jew, who had just made a good bargain, came to the desk, threw down a ruble and said: 'I'll take half a dozen tickets.'"

"This, my first paying hearer, caused me such inexpressible delight that on visiting the town several years later I had him photographed at my cost in order to have his portrait as a memento of my early struggles."

# A TERRIBLE DISASTER.

Three Hundred and Five Chinese Drowned in Mid Ocean.

SAN FRANCISCO, Oct. 27.—The steamship Gaelic, which arrived at this port to-day from Hong Kong and Yokohama, reports the loss of the Chinese transport Waiyee and the drowning of 280 Chinese and five Europeans in Pescadores on September 15.

The British bark Oxford was stranded on the Bataan coast on September 19. No lives were lost.

The Gaelic also reports that twenty-four Chinese and the second officer of the steamer Anton were washed overboard during a typhoon. Nearly all vessels arriving at Hong Kong before the Gaelic left reported having suffered more or less damage from the typhoon.

A report was in circulation in Hong Kong of the effect that Jardine Matheson & Co. had concluded to contract with the Viceroy of Hong Kong for a supply of \$4,000,000 worth of war materials.

## Probably Result in a Strike.

ST. PAUL, Minn., Oct. 27.—The railroad employees of Minnesota view with alarm the reported reduction in freight rates, as they fear it will cause a reduction in salaries and number of men employed. In order to protect themselves they have formed a secret organization, which is said to have one hundred thousand members. They hold that the rail and commission are responsible, and that the reduction is for political effect. Should a further reduction be made an immense strike is not unlikely.

## Hiding Jay Gould Good-By.

NEW YORK, Oct. 27.—A meeting of the Western Union telegraph directors was held to-day. It was called for the purpose of bidding Jay Gould good-by in case he carries out his plan of leaving for Europe Saturday, and also to talk over plans for the future. The Baltimore & Ohio matter took up considerable of the time of the meeting, though one of the directors said that what was done at the meeting was of no immediate interest to the public.

## "White Caps" in Ohio.

COSHOCOTON, O., Oct. 27.—The organization known as "White Caps" made its presence known to William Mariatt, a wife-whipper, last night. Mariatt, who is a general utility man at the fair grounds, was surprised in the very act of beating his spouse. The gang led William to the commons and there administered a very severe chastisement. They then placed a rope around his neck and swung him from the limb of a tree until he begged most piteously, promising to desist from the habit of beating his frail wife.

## Funeral of Minister Washburne.

CHICAGO, Oct. 27.—The funeral services of the late Hon. E. B. Washburne took place to-day, and were largely attended by the political and social friends of the deceased statesman. In the afternoon the remains were taken to Galena, Ill., for interment.

## WRITING REFRACTORY WORDS.

Curious Slips in the Cogs of Mental Machinery—A Writer's Experience.

Dr. Holmes has written something about it, as he has about everything else that is odd and interesting. But it is a subject that remains forever with the man who has much occasion to adjust his thinking machinery with the physical machinery of writing, and who has found out that there are certain cogs in one set of machinery or the other that always slip. The Listener, for instance, never writes the word "by," unless his mind is specially upon the writing of it, and each letter is written with a separate act of volition, without first writing "but" and scratching it out; and vice versa, he seldom writes "but" without first writing "by." The word "Egypt" is invariably refractory, and will not be written correctly the first time. So is the word "eighty."

A gentleman of the Listener's acquaintance has the same difficulty with "for" and "from" that he does with "by" and "but," and still another is generally floored by the words "than" and "that," writing one where the other should be. The first gentleman always writes "Duch" for "Dutch," going back and putting in the t after "ward," and the second invariably writes "commonwealth" or "commonwealth" before he can get the word right. The first cannot write the word "nomenclature" without stopping to think about it. Still another, a man of books, has the same difficulty with the word "Egypt" that the Listener has, except that he writes it "Egypt," while the Listener writes it "Egypt," and he has the additional peculiarity, which is worth noting, that when he reaches the letter r which occurs in his signature, he is always compelled to stop and think, or else he will make a superfluous stroke which will turn it into another letter. This regular hostile encounter with a refractory letter in his own signature he finds peculiarly vexatious.

The Listener has not attempted to formulate a theory for this peculiarity, but is inclined to the opinion that, in the majority of cases, it is due to physical habit—a trick of the nerves or muscles, that has become practically incorrigible. In the case of the word "Egypt" there it goes again—Egypt, the inherent difficulty of a word which has three letters in succession involving a stroke below the line is evidently to be blamed rather than any physical trick; but in the invariable writing of "by" for "but," and "for" for "from," and vice versa, certainly the blame is not to be placed upon the word. Perhaps the type writer will cure us all of the trick when we finally give up writing with the pen, and perhaps it will not. There are a good many evidences that the type writing machine simply multiplies the errors of the hand writing. One finds involuntary anagrams in every page of some people's type writer manuscript, and one friend of the Listener, who writes with a machine, says that he occasionally writes a word exactly backwards—"kcalb" for "black," for instance, and cannot imagine how in the world he manages to do it.—Boston Transcript "Listener."

## Yankee Ingenuity.

Miss De Fashion—Horror! It's Sunday and my writing paper is all gone. Little Brother—That new kind?

"Yes."

"I'll make you some. Jane got a bar of soap yesterday, and the paper around it is just like what you had, rough and sort of brown."

"Nonsense. My paper had red eyes."

"Yes, I know. I'll get Jane to cut it the right size and dip the edges in raspberry jam."—Omaha World.

KENTUCKY ODDFELLOWS.

The Fifty Fourth Annual Meeting of  
the Grand Lodge at  
Louisville.

The State Grand Lodge of the Inde-  
pendent Order of Oddfellows convened  
in its fifty-fourth annual session at Loui-  
sville Tuesday morning, with Grand Mas-  
ter Elliott, of Lexington, presiding.

About two hundred delegates repre-  
senting the various lodges of the State  
were in attendance. In addition to  
Grand Master Elliott, the following  
officers of the Grand Lodge were present:  
Andrew J. Reed, Richmond, Deputy  
Grand Master; George W. Wainscott,  
Lexington, Grand Warden; Wm. White,  
Louisville, Grand Secretary; George W.  
Morris, Louisville, Grand Treasurer;  
Wm. Reinecke, Louisville, Grand Repre-  
sentative; Dr. John P. Phister, Mays-  
ville, Grand Representative; the Rev. S.  
X. Hall, D. D., Louisville, Grand Chap-  
lain; R. E. Cook, Henderson, Grand  
Marshal; O. W. F. Dusch, Louisville,  
Grand Guardian.

The proceedings Tuesday consisted of  
the appointment of committees, and the  
reading of the reports of the Grand Mas-  
ter, Grand Secretary and Grand Treas-  
urer.

The Commercial says Grand Master  
Elliott's report covers the work of the  
order for the year, and shows a net gain  
of 385 new members, and that the in-  
crease would be much larger but for the  
lodges which have been suspended be-  
cause of their lack of life, and loss  
of energy among the mem-  
bers. The Grand Master states that it  
has been his object to cut off such lodges  
and awaken a stronger feeling for work  
in the order, and that he can say it is in a  
healthier condition than for years. Finan-  
cial carelessness is especially deplored,  
and the treasurers are advised to exercise  
more prudence, and in some instances  
more honesty than has characterized former  
officers. The report shows that from  
\$5,000 to \$6,000 of the fund for Widows'  
and Orphans' Home, and other funds of  
the order have been lost in the last few  
years through treasurers without bond,  
and the imperfect settlements required.  
The report recommends that lodges be re-  
quired to keep their property insured,  
and report same in their semi-annual re-  
ports; that secretaries, treasurers and  
committees for widows and orphans be  
required to give bond; that some restric-  
tions be imposed as to loaning members  
money, or that the Grand Lodge specify  
the kind of security that shall be given  
by all who borrow. He also asks that a  
form of bond for all these officers be pre-  
pared. The Grand Master further sug-  
gests that the Grand Lodge at this session  
study all the needs of the order and se-  
cure, if possible, some successful move  
to extend the lodges into counties not  
represented.

Grand Secretary White, of Louisville,  
reported the order in a healthy condition,  
with apparently the best year's history of  
its existence.

F. W. Schroeder, P. G. of Mangum  
Lodge No. 21, of Paducah, was awarded  
by the Grand Master a handsome Past  
Grand's regalia for presenting the largest  
number—fifteen—of petitions for member-  
ship.

Central Lodge No. 8, of Danville, show-  
ed the largest increase the past year. It  
started in the year with five members  
and now numbers fifty. Union Lodge,  
of Nicholasville, had increased from seven  
to fifty.

The election of officers took place yester-  
day, but the result has not been  
learned.

McCarthy-Kane.  
The marriage of Miss Kate Kane to  
M. J. McCarthy was solemnized at St.  
Patrick's Catholic Church at half-past 9  
o'clock this morning. Rev. Father Gio-  
lienz, the venerable pastor of the church,  
officiated, and in the beautiful and im-  
pressive ceremony of the Catholic faith  
spoke the words that united the couple.  
The happy couple were attended by  
Daniel Daly, a cousin of the groom, and  
Miss Maggie Swift, one of the bride's most  
intimate friends.

The groom is the junior proprietor of  
the EVENING BULLETIN. The lovely bride  
to whom he plighted his troth is a daugh-  
ter of Mr. and Mrs. John J. Kane, of this  
city. She is a member of the choir of  
St. Patrick's Church. At the conclusion  
of the marriage ceremony and the cele-  
bration of mass, a wedding breakfast  
was served at the home of the bride's  
parents.

The bridal party left on the noon train  
for Cincinnati. They will return next  
Saturday and make their home on West  
Third street.

The Limestone Flouring Mills will be  
compelled to shut down next Saturday  
for want of fuel. Their supply is about  
exhausted. About forty hands will be  
thrown out of employment. The mills  
have about 35,000 barrels of flour on  
hand, sufficient to supply their trade for  
about one month.

the other night to Georgetown in a bug-  
gy. He was drunk, and was found in a  
dying condition the next morning. He  
had fallen out, caught in a wheel and  
had been dragged most of the way home.

THEODORE MACHENHEIMER, who left  
here the past summer, has been chosen  
one of the Directors of the Spokane Falls  
Gas Light Company, of Spokane Falls,  
Washington Territory. W. B. Mc-  
Donough is the President. The company  
has recently completed the erection of  
its works.

MISS BELLE GILBERT was greeted by a  
splendid audience at the opera house last  
night. The crowd was delighted with  
the entertainment. The company is  
growing in popular favor, and deserve  
the patronage they are receiving. To-  
night, they appear in "Leah, the For-  
saken."

The residence of Peter Stivers, on Briar  
Ridge, a short distance from Manches-  
ter, was totally destroyed by fire a few  
evenings ago. The household goods were  
all burned before assistance could be had.  
The house was heated by an old-fash-  
ioned fire-place, from which it is sup-  
posed the fire originated while the family  
was asleep. The estimated loss is be-  
tween \$1,500 and \$2,000.

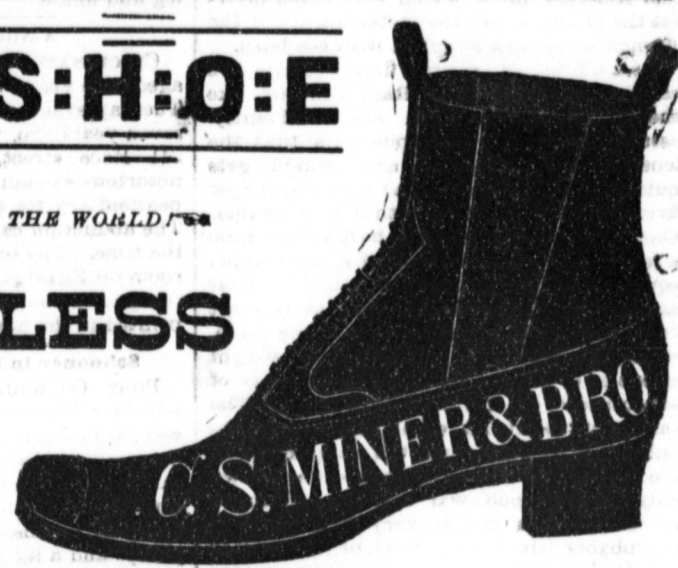

The Natural Gas Well.  
R. W. Evans, the contractor who is  
sinking the natural gas well, is in town.  
Drilling has again stopped on account of  
salt water. The well will likely be aban-  
doned now, and another one sunk near  
by to the vein of gas which was found  
before at a depth of about 400 feet.  
It is thought a good supply of gas can  
be found in that vein by "shooting" the  
well.

Appointment Worthily Bestowed.  
Major T. J. Chenoweth received a tele-  
gram yesterday afternoon from his cousin,  
Hon. James Q. Chenoweth, First Auditor  
of the United States Treasury, that con-  
tained good news. It announced that  
Hiram P. Chenoweth had been appointed  
to a position as Clerk in the First Audi-  
tor's office, the appointment to date from  
November 1st. The clerkship pays a  
salary of \$1,600 a year.

The appointee is the son of Major  
Chenoweth and is at present a member  
of the firm of Chenoweth & Dimmitt.  
He is a sober and industrious young  
man, well-liked where ever known, and  
is in every way worthy of the position.  
It is hardly necessary to add that he has  
been a Democrat from his birth.

## NEWS FROM OVER THE SEA

### THE FRENCH ARMY TO HAVE THE BEST GUN IN EUROPE.

Both England and America Obligated to Watch the Practice of the French Army Now Supplied With the Lebel—They are Fast Manufacturing the New Gun.

LONDON, Oct. 27.—The French war department is pushing forward as speedily as possible the manufacture of the new magazine rifle. The workshop, now in course of construction at Châtelleraud, will be finished by the beginning of the next year, and the number of guns made daily will then be trebled. Accusations have been made against Gen. Ferron, minister of war, of lack of patriotism or indifference as to the needs of the French army in diminishing the credit asked for the ensuing year, but with the surplus remaining of the amount voted for 1897, the sum demanded will be amply sufficient, the general's supporters assert, to push the fabrication of the new gun and the new cartridge to the full capacity of the works.

The French journals, which all affect a confident understanding of military affairs, assure us that the new magazine rifle, the Lebel, will give the French army when furnished with it, a striking and undeniable superiority over the armies of Europe.

Allowing for natural French exaggeration, it seems that the new gun is partially at least a success. Certainly it is the best one now in the field, and as there is no doubt that all armies, in order to contend upon an equal footing, must at once be furnished with repeating arms, both Europe and America must watch with much interest the practice of the detachments of the French army now supplied with the Lebel.

As a matter of course first accounts are conflicting. German military journals, like the Militar Wochenblatt, are confidently assured by their correspondents that the Lebel is a complicated arm which gets quickly out of order and that the target firing of the French with it is execrable. One point asserted seems to be founded upon a familiarity with results, but it must apply equally to all magazine arms, namely: That as the cartridges are expended there must be an alteration in the balance of the piece, owing to a constant diminution of weight at one end, thus causing an uncertainty of aim because of a variation of range. The calibre of the Lebel is eight millimetres, the bullets are of steel and the composition of the explosive is claimed to be a secret known only to the French war department, but as its consumption causes very little smoke it is probably similar to that of the "wood" powder, the efficiency of which is a matter of dispute.

The recoil of this gun is much less than that of the ordinary arm, and a greater number of cartridges can, on account of their smaller weight, be carried by the soldier.

A former officer of the United States army, who has witnessed trials both of the Lebel rifle and the Mauser, with which the German troops are being armed, states that there is but little difference between the two guns in point of efficiency, but that the French soldiers appear to learn the mechanism of their arm quicker and to be more dexterous in its use.

L'Avenir Militaire says that the German Mauser rifle has one serious defect in that the extractor lever is fragile, and that the Teutonic soldier is too inherently clumsy with his fingers to successfully manipulate such delicate mechanism as enter into the make of his new magazine rifle. One thing appears certain from trustworthy sources as to the practice of both guns, that accuracy of aim must be sacrificed to ensure an increased rapidity of firing.

**Riot Act Read in Cork.**  
CORK, Oct. 27.—Mr. John Dillon was escorted to the railway station last evening by a large crowd, who sang patriotic songs while passing the police barracks. The police sallied forth and piked their batons upon the heads of the crowd, regardless of consequences. Mr. Dillon was about to address the police and the crowd when a magistrate appeared and read the riot act. Upon the advice of Mr. Dillon and the mayor the crowd dispersed.

**Battle on the Serbian Frontier.**  
BELGRADE, Oct. 27.—A party of Albanian brigades attempted to make a raid in Narvjo, a small town on the frontier of Serbia, yesterday. They were met by a force of frontier guards and an engagement took place between them. Twenty of the brigades and ten of the guards were killed. A reinforcement of guards has been sent to the frontier.

**Won the Downhurst Plate.**  
LONDON, Oct. 27.—Friars Balsam, owned by Sir Frederick Johnson, won the race today for the Downhurst plate. The race was run over the last seven furlongs of the Rowley Mill at Newmarket, and he carried the top weight of 131 pounds. Friars Balsam will now be retired for the season.

**Narrow Escape from Drowning.**  
MILWAUKEE, Wis., Oct. 27.—The schooner J. A. Holmes arrived here yesterday and reports that her master, Capt. E. Elson, was knocked overboard off Sheboygan in the storm Sunday afternoon by the main sheet. The captain was kept afloat by the air under his oil-skin jacket, and after nearly an hour he was recovered alive, but unconscious by a crew in the yawl. He was taken to his home in Sheboygan, where he revived.

**New York Politics.**  
NEW YORK, Oct. 27.—Irving Hall imitated the Republicans last night by endorsing Mr. Martine for judge of sessions, and nominating Mr. Nicholl for district attorney. This action was taken by the committee of twenty-four. The county convention will be held Thursday night. Mr. Nicholl says he will accept the nomination of the Republicans.

**Suicide or Murder of a Chinaman.**  
NEW YORK, Oct. 27.—Lo He Yone, part owner of a laundry at 63 Delancey street, was found dead and covered with blood, with his throat cut, in the laundry yesterday. A razor lay near by. The case is supposed to have been one of suicide, but is being investigated, and two Chinamen who lived with Yone are under surveillance.

## POINTED PARAGRAPHS.

Topics of the Times Given in a terse and spicy manner.

Coal miners are endeavoring to unite. Jay Gould will sail for Europe Saturday. His yacht left yesterday.

Rev. John Sarvis, of Wilkesbarre, Pa., is asked to resign for kissing ladies and riding horseback.

Train robbers derailed a train in Fayette county, Texas, but did not go through it. The fireman was killed.

William Reed, Pittsburgh millionaire, was drowned while searching for a sunken ship in the ocean off the New Jersey coast.

The supreme court of Massachusetts has decided that the prohibition law does not forbid the sale of liquor by clubs to members.

The Paducah and Mt. Vernon packet sunk in the Ohio river seven miles east of Golconda, Ill. Her cargo of bran and shipstuffs is a total loss.

Robert Brockie, farmer near Kalamazoo, Mich., fell from a wagon and dislocated his neck. A doctor set it and he is alive, although his body is paralyzed.

Knights of Labor Assembly 1307, of Chicago, the one to which Parsons, the Anarchist, belongs, has decided to quit the ranks and fall in with the secessionists.

An unsuccessful attempt was made to roast thirty Italian laborers in Paris, Mich., by barricading the doors and windows and setting fire to the building in which they slept.

H. S. Pierce, son of Representative Pierce, of Logan county, Illinois, is suffering from glanders. The young man had some horses affected with what was supposed to be distemper, and in smoking them broke the skin upon his left hand. Some time thereafter sores developed upon his hand, arm, leg and ankle.

**A Noted Child Dies.**

CINCINNATI, Oct. 27.—Theodore Kellar, aged nine years, died of spinal meningitis Tuesday evening. He was the boy who, seven years ago, was stolen from his home, 241 Race street, by Kate Fitzgerald, a notorious woman, who was sentenced to the penitentiary for ten years for the crime. The abduction caused great excitement at the time. The boy was kept five days in a room on Elizabeth street, and was finally recognized on the street from a picture printed in the newspapers.

**Schooner in a Dangerous Position.**

PORT COLBOURNE, Ont., Oct. 27.—The schooner Seaton, stranded near Port Burwell, is in a dangerous position, her hold nearly full of water and listed badly. Her cargo is damaged. The schooner Neelton, sunk by the Seaton, is in a better position and may be raised. Wreckers with steam pumps and a lighter have gone to their assistance.

**Should Have Used an Augur.**

MEDINA, N. Y., Oct. 27.—Workmen used a hot iron at the New York Central passenger depot yesterday to bore a hole in the telegraph office for a semaphore signal chain. Shortly afterward the depot was found to be in flames, which entirely gutted the building. The agent saved his tickets and instruments. Loss not estimated.

**A Large Paper Organization.**

NEW YORK, Oct. 27.—It is reported in the paper trade that a company composed of eight leading paper stock manufacturers of the country has been organized at Canajoharie with a capital of \$2,000,000, to be known as the American Paper Bag company. Hon. James Arrell was chosen president.

**The Weather.**

WASHINGTON, Oct. 27.—Indications—Warmer, fair weather, followed by rain, light to fresh southerly winds.

**FINANCE AND COMMERCE.**

**Quotations of the Money, Stock, Produce and Cattle Markets for Oct. 26.**

New York—Money 3/4 @ 4 per cent. Exchange steady. Governments firm. Currency sixes, 121 bid; four coupons, 120 1/4; four-and-a-halfs, 109 1/4 bid.

The stock market opened firm this morning at a fractional advance over last night's figures. In the first half hour there was some good buying for foreign account and covering by the shorts, which sent prices up 1/4 to 3/8 per cent. The market has since been dull, but prices continue firm, and the best figures are current at this writing.
